IMPORTANT INFORMATION RELATING TO YOUR SPRINT BILL

Billing, Late Payment and Other Information

Full call detail is available online. Payments are due as shown on your invoice to avoid service suspension or disconnection. We will assess a late payment charge if your payment is late. Sprint may charge you for any returned checks (up to \$40). Certain charges accrued during one billing period may be delayed and appear on a later invoice. **We keep credit and debit card information on file and will charge your cards for all delinquent amounts you owe us. You may incur overdraft fees from your financial institution if applicable. Please see your agreements for more details.**

Disputes - You must dispute a charge within 60 days from receiving your invoice or we will consider the charge accepted and due.

Your privacy - Protect against unauthorized account access by using a Personal Identification Number (PIN) to identify yourself when calling Care or visiting a retail store. Visit sprint.com/pin to establish or change your PIN. Don't use commonly known info like birthdays or SSNs. To access your account online, create a unique UserID/ password. Sprint's Privacy Policy is available at sprint.com.

Enhanced 911 (E911) - services provide public safety officials with your location during a 911 call. E911 services are not available everywhere and at all times. E911 availability depends on many factors, including the ability of local public safety agencies to receive and process location information, your equipment's capabilities and other factors impacting service delivery.

Terms & conditions/service updates - Sprint's terms and conditions sometimes change and the current version is online and updates are provided in the news and notices section.

MINNESOTA RELAY

Minnesota Relay is a free telephone service that uses specially trained communications assistants to facilitate telephone calls between people with hearing and speech disabilities and other individuals. Calls can be made to anywhere in the world, 24 hours a day, 365 days a year. All calls are completely confidential.

To make a Minnesota Relay call dial 7-1-1. Once connected to the relay service, tell the communications assistant the type of relay call you wish to make. Or, you may dial the specific toll free number for the type of relay service.

For information on Minnesota Relay Services: www.mnrelay.org or 1-800-657-3775.

TYPES OF RELAY SERVICES

Captioned Telephone Service (CTS)

CTS uses a special telephone with a text display screen so that a person who is hard of hearing can listen to and read captions of everything the other person on the call says. You speak directly to the other person on the call, and a relay communications assistant transcribes everything the other person says into captions, which appear on the display screen of your CTS phone.

Internet Protocol Captioned Telephone Service (IP CTS)

Internet-based forms of CTS are available for those who would like to use CTS on a computer, tablet, or smartphone. Go to: www.fcc.gov/consumers/guides/internet-protocol-ip-captioned-telephone-service.

Computer (ASCII): 1-800-627-3529

Computer users can access Minnesota Relay. Set your communications software to the following protocols: speeds ranging from 300 to 2400; 8 Bits; No Parity; 1 Stop Bit; Full Duplex. When calling at a rate of 300 or below, follow the above using Half Duplex.

Hearing Carry Over (HCO): 1-800-627-3529

HCO allows a person who can hear clearly but who has very limited or no speech capability to make and receive phone calls. Using a special text telephone, you type your conversation for the relay communications assistant to read to the other person, and listen directly to the other person's response.

Hearing User: 1-800-627-3529

A hearing person may use a standard telephone or mobile phone to place a relay call and speak with a person who is deaf, hard of hearing, or speech disabled.

Internet Protocol (IP) Relay:

IP Relay combines text-based relay service with the ease of the Internet – no need for a TTY. You are able to make your relay call using a computer, laptop, tablet, or smartphone. Go to: www.sprintrelay.com.

Spanish Relay: 1-877-627-5448

Spanish speaking persons with a hearing or speech disability are able to make relay calls. This is not a translation service – both parties must speak Spanish, and at least one party must have a hearing or speech disability.

Speech-to-Speech (STS): 1-877-627-3848

STS allows a person who has difficulty speaking or being understood on the phone to communicate using his or her own voice or voice synthesizer. The relay communications assistant revoices your words so that the other person on the call can understand them, and the other person speaks directly to you.

Text-Telephone (TTY): 1-800-627-3529

This service allows a person who is deaf, deafblind, or speech disabled to use a TTY to communicate with the other person on the call.

Video Relay Service (VRS)

VRS allows a person who uses American Sign Language (ASL) to communicate over the phone. The VRS user connects to the relay communications assistant via an Internet-enabled device with a video camera. The communications assistant relays the conversation back and forth between the parties – in ASL with the VRS user and by voice with the called party. Go to: www.fcc.gov/consumers/guides/video-relay-services.

Voice Carry Over (VCO): 1-877-627-3024

VCO allows a person with a hearing disability, but who wants to use his or her own voice, to speak directly to the other party. The communications assistant then types the other party's response, which is displayed on the VCO user's text telephone.
